

MINIPROJECT

Bi-Weekly Report
Group No:06
Guided By:Ajay James
Done By:Manu Thomas

April 5, 2012

1 Title:

Intelligent power saving system

2 My Study:

- Soldering on PCB board was completed.
- Micro controller implimented in PCB board.
- Implimented sensors and other parts
- Design the micro c code convert it into hex.
- Burned the hex code into micro - controller.
- Modified the code again and again to meet the time constraints.
- Burned and tested the code into micro controller.
- Tested the whole system.
- Found some errors and debug the micro c code.
- Completed the implementation and prepared for demo.
- Start to prepare the testing document and final report.
