

MINIPROJECT

Bi-Weekly Report
Group No:06
Guided By:Ajay James
Done By:Merin Mathew

April 5, 2012

1 Title:

Intelligent power saving system

2 My Study:

- Completed soldering of circuits.
- Burned the microcontroller with the hex code.
- Tested the working.
- Modified the code again and again to meet the time constraints.
- Burned and tested the code.
- Connected indicator LED's and placed the entire system on a board.
- Tested the working in different temperature and intensity conditions.
- Completed the implementation and prepared for demo.
- Prepared the testing document.
- Started to prepare the final project report.
