MINIPROJECT

Bi-Weekly Report
Group No:06
Guided By:Ajay James
Done By:Manu Thomas-ETAJECS029

February 23, 2012

1   Title:

Intelligent power saving system

2   My Study:

- Discussed with guide about preparation of design procedure and documents. He gave the some important idea for preparation of the document.

- Start to study about the deign of the system with UML

- studies the working of micro contoller PIC 16f72

- discussed in group the working of each components

- make the rough diagrams for the structure of entire system

- prepare the use case diagrams after studding the functions of the system

- studies about the data flow in the entire system

- Studies abut the micro controller coding in c for process the signals and data flow between components

- studding about the LDR circuit and ho it can connecting with micro controller

- design the circuits with the help of internet and some seniors
